

NotebookLM

Exported on: 08.07.2026, 17:06:44

tell me detaily about that chrome exntesion that allows to export notebooklm to pdf

The "**NotebookLM to PDF, Word, Markdown export**" is a Chrome extension designed to help users archive and share their NotebookLM interactions in professional, portable formats. As of June 2026, it has over **40,000 users** and a **4.2-star rating** based on 211 reviews.

Key Features

- **One-Click Export:** You can save entire chat histories or multiple selected notes with a single click.
- **Batch Processing:** It allows you to export several chats to PDF at once to save time.
- **Maintained Formatting:** The tool is built to retain all formatting, including **code blocks** and the original conversation flow, ensuring high readability.
- **Privacy-Focused:** Your data is processed locally on your device rather than on external servers, enhancing security.
- **Multiple Formats:** While primarily used for PDF, it also supports exporting to **Word and Markdown**.

How to Use the Extension

1. **Installation:** Search for "NotebookLM to PDF" in the Chrome Web Store and add it to your browser.
2. **Select Content:** Open your NotebookLM dashboard and select the specific note or multiple notes you wish to export.
3. **Export:** Click the "**Export to PDF**" button, which typically appears in the chat toolbar or the note menu.
4. **Download:** The extension processes the chat and generates a file for instant download.

Technical Details

- **Developer:** The extension is developed by Slava Tarasov (notebooklm-to-pdf.com).
- **Languages:** It supports **55 languages**, including English, Spanish, French, Chinese, and Japanese.
- **Size:** It is a lightweight extension at **1.58MiB**.
- **Cost:** While it is available in the Web Store, the listing indicates it **offers in-app purchases**.

Privacy and Data Usage

The developer has disclosed that the extension handles **personally identifiable information** but declares that data is **not sold to third parties** or used for purposes unrelated to the item's core functionality.

There are also several **related extensions** mentioned in the sources that offer similar or specialized features, such as "NotebookLM Ultra Exporter," which can also export slides, mindmaps, and flashcards, and "NotebookLM Exporter," which focuses on authentic styling.
